## REPORT SCORES TENEMENT HOUSE

Committee Condemns "Blot  
On Life In Honolulu" to  
Episcopal Convocation.

Declaring the tenement house situation is one of the greatest blots on life in Honolulu, a committee on moral and social conditions made a strong report last Saturday afternoon at the business session of the ninth annual convocation of the Episcopal missionary district of Honolulu. The committee consists of G. C. Potter, Alexander Lindsay, Jr., W. Ault, L. Kroll and James Wakefield. In part it is as follows:

"The territorial legislature during its recent biennial session passed a number of wise and beneficent laws which will be referred to more fully in this report.

"Blot on Honolulu.

"Your committee beg to state that in their opinion one of the greatest blots on life in Honolulu is the tenement house situation. Men who are in a position to know, state, that a very high percentage of crime committed in this city originated in and from these tenement houses; and it is evident that practically all these tenement dwellings are badly in need of constant vigilant police supervision, as well as the most strict control by the health board. It is hoped that with the increased powers granted the board of health by the last legislature that the great danger of these tenements to the public health will be materially lessened by the active enforcement of our territorial statutes by the officers of the board.

"Your committee begs to draw the especial attention of the convention to the great boon and blessing to a large portion of the population of this city, afforded by the recreation grounds, known as Ala Park.

Would Extend Street.

This land, situated in the heart of the most thickly populated part of Honolulu, is the source of health giving pleasure and happiness to young and old of all the many nationalities resident in proximity to it, so keenly is it appreciated that the grounds are frequently much overcrowded, and ball players and boys, youths and young men hampered in their games for lack of space. With this in view your committee would recommend that a committee be appointed to

move public interests in the question of the extension of Ala Park through to Ala lane from King street to Beretania avenue, and when the subject has been well discussed, to approach the county authorities for condemnation proceedings to be instituted to secure the property named as an extension to Ala Park for the perpetual use and enjoyment of the people.

Encouraging Features.

"Among the bright and encouraging features your committee desires to draw attention to the work that has been inaugurated for the benefit of the boys and young men of the community, through the Young Men's Christian Association, the Boys' Scout movement and the Big Brother movement. We can not recommend too highly the work of the Y. M. C. A. for boys and young men, and would strongly urge all boys over twelve years of age to acquire the privilege of membership of this organization. That the moral side of the youth can be developed and strengthened by the care and judicious training of the physical is amply demonstrated and for the bodily protection of the boy, a thorough examination of each boy is made by the physician of the Y. M. C. A. and a well considered course of gymnastics is placed before him to develop the weaker parts of the body, and so equip him physically as well as mentally, through opportunities in classes, for the battle of life.

## ROOSEVELT, IN OUTLOOK, DISCUSSES DYNAMITING

NEW YORK, May 4.—In a signed editorial, headed, "Murder is Murder," in the current issue of the Outlook, Col. Theodore Roosevelt, discussing the arrest of J. J. McNamara and his associates for the alleged dynamiting of the Los Angeles Times, says:

"No worse crimes can be rendered by labor union leaders to the cause of unionism than that which they render when they seek to identify the cause of unionism with the cause of any man guilty of a murderous attack of this nature.

"It is grossly improper to try to create a public opinion in favor of the arrested men simply because the crime of which they are accused is one committed against a capitalist or a corporation, and because the men who are charged with committing it are members of a labor union.

"The one and only question is as to the guilt or innocence of the men accused. Any man who seeks to have the men convicted if they are innocent is guilty of a crime against the State, and any man who seeks to have them acquitted, if guilty, also is guilty of a crime against the State."

## There Is Nothing As Good

The REXALL Toilet Articles have been demonstrated. The ladies of Honolulu are satisfied that there is nothing "just as good."

## BLAMES HAWAII SCHOOL SYSTEM

Judge Finds Would-Be Jurors  
Who Are Too Ignorant  
to Qualify.

(Special Bulletin Correspondence.)

HILO, May 19.—Judge Matthewman believes that there is something rotten in the local public school system. At least the Judge does not see how it is possible for Hawaiians to attend the public schools for years and still be unable to read and write sufficient English to qualify as jurors.

Deputy County Attorney Heen, Sheriff Pua and their following returned this week from Kailua, where they had attended the session of the Circuit Court. They brought the report of Judge Matthewman's remarks about the educational system of Hawaii.

According to the officials, a large number of jurors, about a dozen all told, counting both grand and trial jury venires, had to be excused owing to their inability to read and write the English language understanding.

ly. When it was discovered how general this defect was, the talesmen whose qualifications in this line seemed to be suspiciously weak, were given an examination in English, an old copy of the Tribune being most fittingly used as the text book.

## HOT ONE HANDED TO MARSTON CAMPBELL

Some tobacco-sauced statements were dished out by Speaker Holstein in a meeting of the Kohala Civic League, May 11, relative to Superintendent of Public Works, Marston Campbell trying to strangle the Maunaloa wharf, for which the legislature appropriated \$14,500. Mr. Holstein publicly charged Mr. Campbell with arbitrarily attempting to thwart the legislature, and with graft.

Mr. Holstein alleges that Mr. Campbell insisted that the wharf could not be built for less than \$50,000, and that he tore up the specifications.—Kohala Midget.
